

Please do not let this bill pass. As a small business. ..it will cause me financial stress that may very well be the end of my business. I would be heartbroken to see the efforts of my 17 employees be destroyed by our state government. I do my best everyday to be successful. ...this bill has the impact that would make it impossible to stay open. Is it the intent of our State to put more people on the government payroll? I hope not...
