

I am a small business owner in Newberg Oregon. I am very concerned about the proposed Minimum wage bill, SB1532. If the wage is adopted, I don't know how a small business like ours will keep the doors open. Many of my employees are young and we offer them a way to get into a job while paying their way thru college. In order to pay the higher wage, we would have to work with a smaller crew and our service would suffer along with our quality of product. Please consider a new proposal.

Sincerely,

Elizabeth Fettig
