

Cathrine,

I would like to submit opposition to HB 4147.

For the following reasons:

- It's a clear attack of the peoples Constitutional rights.
- The safety of one's self and family should not be compromised due to bureaucratic department performance and inadequacies, that constantly use the lack of available resources as a service excuse.
- There will never be enough public safety officers to adequately cover the criminals left on the street by failed judicial system.
- It does absolutely nothing to get guns out of the hands of active criminals
- The physical conditioning of the LEO/EMT force is for the most part embarrassing, confidence in their ability to efficiently perform physical duties is compromised.
- When seconds count LEO's are only minutes away.

Thank you,

S. Siegmund
