WHAT THE MEASURE DOES: Appropriates \$1 million from General Fund to establish tip line on school safety within Oregon State Police. Repeals existing tip line operated by Department of Justice. Requires tipline to receive reports through telephone, text messaging, or electronic formats. Defines threat to student safety as harassment, intimidation, bullying, cyberbullying, threats of violence against others, and threats of suicide or self harm. Requires OSP to adopt rules on identification of caller, logging reports received on tipline, verifying authenticity of reports, and relaying reports to local law enforcement and appropriate school district officials. Includes knowingly misreporting through tipline within crime of improper use of emergency communications system. Declares emergency; effective on passage.

ISSUES DISCUSSED:

EFFECT OF COMMITTEE AMENDMENT: Proposed (-1) amendment extends sunset on Task Force on School Safety to December 31, 2017. Includes two new members from Department of Education and Association of Oregon Community Mental Health Programs.

BACKGROUND: In 2014, House Bill 4087 created the Oregon Task Force on School Safety. The Task Force included representatives from police, fire, school administration, teachers, and policy advisors on public safety. One of the charges to the Task Force was to, “Examine models for existing protocols for school safety and incident response and consider whether standardized statewide school safety and incident response protocols would be appropriate.” In response to that charge, the Task Force recommended establishing and funding a statewide tip line for reports of threats to student safety.

House Bill 4075 establishes that statewide tip line. The measure appropriates \$1 million for the implementation of the line. The line must receive telephone calls, text messages, or electronic messages through the internet. The OSP must develop rules on processing the calls, including how to protect the identity of the call while enabling return contact, logging reports, verifying authenticity of reports, and relaying that information to local law enforcement and school district officials. The measure repeals a tip line housed within the Department of Justice.
