Re: Support for HB 4145
Date: February 1, 2016

Dear Senate President Courtney & House Speaker Kotek:

We write in strong support of HB 4145.

HB 4145 is a thoughtful, structured plan to increase judicial pay so that it comes close to the median salary for judges serving in comparable positions in comparable states, as recommended in 2008 by the Public Officials Compensation Commission. It is extraordinarily important for Oregonians in all walks-of-life to have a highly-qualified and experienced judiciary. Appropriate salaries are necessary to attract the best and brightest lawyers to judicial service and also to retain the many exceptional judges we now have.

Oregon's trial court judges are among the lowest paid judges in all U.S. states, consistently ranking between 44th and 50th.¹ The COLA that was added for judicial salaries in 2015, while important to not lose ground to inflation, will not address inequities that have developed over time. More than 100 lawyers in the Department of Justice can make more than a circuit court judge, and the Deputy Attorney General makes \$35,000 per year more than the Chief Justice of the Oregon Supreme Court. It is increasingly difficult to recruit seasoned and accomplished lawyers with civil and family law backgrounds. Oregonians deserve - and have a right to expect -- an experienced, high-caliber Bench.

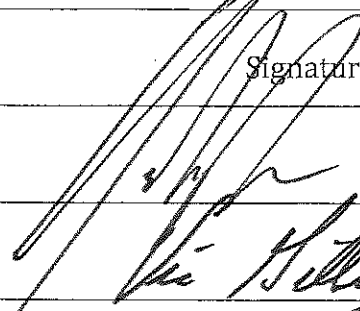

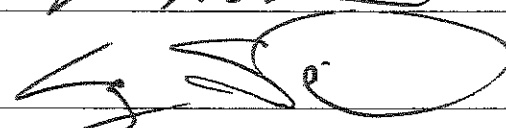

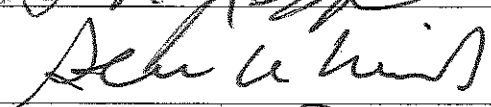

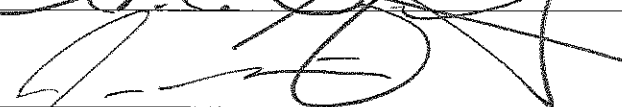

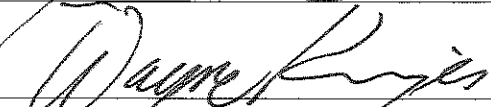

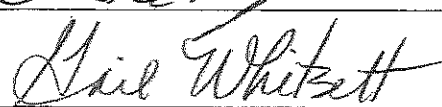

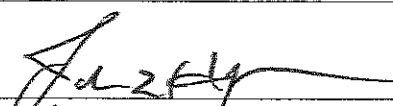

Increasing judicial salaries is good common sense administration, adequately compensating judges who serve the public in every county of the state. Doing so over a period of years is a fiscally prudent and thoughtful way to ultimately achieve adequate judicial compensation.

Please consider the attached "Request for Judicial Salary Increase" for more information about why HB 4145 deserves your support.
