

I hope the Democratic Party keeps pushing divisive bills such as SB1551 and HB4147. I myself know of at least 14 registered democrats who have changed their voting status to Independent and least 3 others who have switched to the Republican Party. Anyone [whose seat isn't locked in by the democrats] who votes for these bills will pay the price in November. And both bills will be challenged in the courts if they are passed. You are making gun owners who have never voted angry enough to vote this fall and you can be sure it won't be for any democrat. So you democrats all I can say is keep up the good, no, excellent work you are doing. We are really looking forward to this November.
