Year 2012, Freedom versus Vassalage

The road to World Control as outlined by “Communist Manifesto”, “Principles of Communism” and others Marxist Essays, which are in. The implementation is on a timely schedule masterfully done. For Marxism, time is not a detriment; they adjust based on the circumstances:

1. - Abolition of private property.
2. - Progressive Taxation.
3. - Abolition of all rights of inheritance.
4. - Confiscation of all properties of rebels and opponents.
5. - Establishment of a “New Class” or “Elite, which rules government, aka “The Party”.
6. - Establishment of a police state, with unlimited power.
7. - Central government banking and control of all financial institutions.
8. - Central government control of ALL means of communications and transportation.
9. - Central government control of ALL industrial production and agriculture.
10. - Central government control of the labor force.
11. - Central government control of ALL regional planning.
12. - Central government control of ALL “media” and levels of education. Indoctrination of children is mandatory.
13. - Abolition of individual rights in favor of a “common cause. Anyone against, is labeled “enemy of the people”.
14. - Elimination of religion, family values or anything in conflict with the “new dogma”, as defined by “the Party”.
15. - Absolute control of the judiciary system by the “The Party”. Trials, “Roman Circus” style, are favored.
16. - Abolition and confiscation of ALL firearms. Population MUST be disarmed.

NOTE: Any disobedience or disagreement with “The Party” carries severe punishment including death penalty, based on the potential damage of the dissidence. The Party must not be challenged, is it the absolute power.

International movements such as socialism, liberalism or any other similar style organizations are the spearheads of world domination. Those are the ante-chambers of “communism” to infiltrate democracy and establish Marxism destroying freedom and the countries solid foundation; in America, the “Constitution”, traditions, family values and self respect.

Communism uses appealing programs such as healthcare, environmental issues and other fallacies, solely for promotional purposes. Only reason is to achieve “people control”, cementing “totalitarianism”. Marxism goal, through communism/socialism programs, is world domination. A diversity of tactics is implemented to drive the nations toward bankruptcy by implementing heavy taxation, unrealistic irresponsible budgets, wasting tax dollars in fallacies and funding a monstrosity bureaucracy, until their goal is consummated.

For communism, indoctrination is essential at all levels, but primarily the children which by their philosophy belong to the State. Children are not educated, but instructed. Control of the media is imperative. Free media must be eliminated. Dissidents and opponents of the ruling dogma are gagged, vilified and ultimate destroy.

Has been proven, America can't be taken over by force. However, through politics and weak behavior of a diversity of political false leaders, the land of the free and the home of the brave are collapsing. The last bastion of freedom is vanishing. It is painful watching the apathy, in so many Americans, applauding and accepting subjugation which would end in annihilation.

America wounded in the heart. We must prevent its death. It is the responsibility of all Americans and the honest politicians to resist the collapse of our country. It is time to denounce it. We are in direct course toward “totalitarianism”; the burial of the American dream never has been so near.

# America the Main and Last Target

Frederick Engels, one of the “Father of Communism” in his 1847 work, “Principles of Communism”, insisted private property must be eliminated. However, he indicated this measure only would take effect when means of production were available in sufficient quantity and control by the State, out of the hands of the bourgeoisie and capitalists. A reason why highly developed countries would be easy targets to infiltrate. No question *America, the main target.*

No doubt Socialism/Communism is calling for elimination of private property. Engels identified private property as the main obstacle for the implementation of the Communism Revolution and his so called “Democracy”. He indicated the necessity of a progressive taxation to clear this hurdle. It is clear this is a must priority for any regime practicing Marxism. The present American administration is following Engels mandate with brilliant accuracy.

Education is another measure to be addressed under Socialism/Communism. Indoctrination to Marxism is imperative, must be injected to people. For this mechanism to begin, must starts with the children at early stage. Children education is totally and absolute government control. Parents are only caretakers, during the very early evolution of the child. The Marxism dogma mandates the State to be responsible for the formation of the child within the communism frame. Children are instructed and indoctrinated to be dependant of the State, They learn that is the State who controls their rights, which are granted or denied, as they please. In communism family does not exist, it is a thing of the past. Family brings tradition, which is in total conflict with communism dogma.

After personally experiencing and watch my native country assailed by communism I started inquires, to learn more, on how Communism operates and move. I have read a variety of essays, writings and others work. The work of Engels in his Principal of Communism reveals many interesting points. Engels work was the steering wheel for developing “Manifesto of the Communist Party” authored by Karl Marx, published in 1848. Communism is reluctant to get entangled directly in any leftist disturbance, disorder or rebellion. Even though, they instigate violence using left radical groups from outside, they take extreme care not to disclose any association. Relations with these groups are totally and emphatically denied. Communism uses those groups’ victims for propaganda purposes. They are labeled heroes, victimized by right wingers, capitalists, bourgeoisie and oppressors of the poor.

The practice of enrolling radical groups masquerading as hero’s pacifist was established by the Bolsheviks in 1919, when “The Third International” dubs it Communism International, or “Comintern” was convoked as general staff of world revolution. Even though this notorious Russian directory disappears many years in the past, their ideas and tactics, I believe still are in practice and much improved. This directory was used to infiltrate democracy worldwide and train communist militants. They spread Communism/Socialism all over the world using Marxism dogma. Latin-America was for many years and still is a major market; the end result Cuba, Venezuela, Bolivia, Ecuador and many others, all in route to communism and socialism totalitarianism
