**Measure Description:**

Proposes amendment to Oregon Constitution to require certain percentages of lottery revenues to be expended for benefit of veterans.

**Government Unit(s) Affected:**

Oregon State Lottery, Secretary of State

**Local Government Mandate:**

This measure does not affect local governments' service levels or shared revenues sufficient to trigger Section 15, Article XI of the Oregon Constitution.

**Analysis:**

House Joint Resolution 202 refers for voters' approval a Constitutional amendment that requires certain percentages of lottery revenues to be expended for benefit of veterans.

Because the measure is referred to voters at the next regular general election, the fiscal impact to the Secretary of State's office is the state's portion of incremental costs incurred for an already-funded election. The Secretary of State prepares and distributes the voters' pamphlet and collects a \$500 filing fee for each argument submitted in support or opposition of a ballot measure. Typically, these filing fees cover slightly more than one-half of the cost of producing and mailing the voters' pamphlet. The remaining costs are paid by the General Fund.

At this time, the fiscal impact to the Secretary of State's office is indeterminate because the cost of producing and distributing the voters' pamphlet is determined by the total number of initiatives and legislative referrals on the ballot, and by the number of arguments submitted in support or opposition of these ballot measures, and this information will not be known until after election filing deadlines. The Legislative Fiscal Office (LFO) assumes that the Secretary will seek General Fund support from the Emergency Board or Legislative Assembly if the actual voters' pamphlet costs exceed currently budgeted election expenditures.

Under procedures established in ORS 250.125 and 250.127, a financial impact committee is created for each state measure submitted to the ballot through the initiative and referendum processes. For this reason, LFO does not include an estimate of the fiscal impact that would result if this joint resolution were to be adopted by a vote of the people. However, as a general point of reference, currently 67% of Lottery funds are unrestricted by constitutional dedications. The two existing constitutional dedications are: 18% for the Education Stability Fund, and 15% for the Parks and Natural Resources Fund. If this joint resolution is adopted by a vote of the people, the percentage of Lottery funds that are unrestricted will be reduced by 3% from July 1, 2017 through June 30, 2050; then by 2% from July 1, 2050 through June 30, 2075; and then by 1% thereafter.
