

Dear Representative McLain,

Please read this message to the committee as my testimony in support of HB 4091.

Thank you for your attention to the online charter schools. It is important to the students of Oregon that online charter schools be required to engage in a continuous improvement process as do public schools to ensure the highest quality of instruction and experience. Online charter schools should be required to meet expectations to address specific learning standards and targets adopted by the Oregon State Board of Education. The State should ensure students in Oregon that courses taken through online charter schools meet the rigorous expectations required of public school courses if public dollars support these charter schools in any way.

Thank you for your time and dedication to a high quality education for all students.

Sincerely,

Dr. Yvonne Curtis
