

Subject: HB 4091Parent Feedback

Hi Richard,

Please post this story regarding HB4091. Thank you.

My son, Alden Akeman is having educational success due to ORCA after being out of school for two years in PPS. I was told there where no avenues to HS diploma on line in Oregon by pps official. Once i discovered that was not true, ORCA has been the answer for my son success. Changing plan to requirement is not needed. This is a political move by public schools to stop the funding to programs that work when their programs failed some kids. Public school money is not their money. It is tax payers money and needs to serve our kids not their interests. Let me know how I can help more.
