ORVA STUDENTS SPEAK

- Ruby, 10th Grade
 - I love doing school at ORVA because it challenges me and makes me perform to my best potential, and yet it is flexible enough that it gives me time to do the things I love and focus on my passions.
- Daisy, 4th Grade
 - I love the fact that no one can pick on me anymore.
- Hannah, 11th Grade
 - I am a student at ORVA; this is my first year in an online school. If I were to tell my best friend one reason I love my school, I would tell her that I love how ORVA is really like a family! Everyone works together as a community; even though we're all in different places, it always feels like we're very close. The teachers are very helpful and always there when you need them. When I first started, I was surprised at how quickly my teachers would answer my questions or give me help when I needed it. Throughout this whole semester I have been given more than enough attention and guidance in my schoolwork. I can tell that these teachers work very hard, it seems like they are always working and I think it's amazing. After doing hours of research and getting feedback from friends in other online schools, I couldn't be happier that I chose ORVA. Thank you for everything!!

ORVA STUDENTS SPEAK

- Gerren, 10th Grade
 - I think one thing that I would tell my best friend is that there is so much more freedom than brick and mortar school. It's just so nice to be able to work ahead (or if you are behind, you can catch up!) and to be able to get up and take a breather if I'm stressed from schoolwork. I'm getting the best grades I've gotten my WHOLE LIFE. Thanks ORVA, for giving me a chance.
- Megan, 8th Grade
 - I like ORVA because my teacher is nice and replies to me fast and helps me, and I am not being bullied anymore.
- Rebekah, 8th Grade
 - One thing I love about ORVA is the teachers are there for you to talk to. In (regular) public school that's not always an option.
- Jesse, 12th Grade
 - I like ORVA because I don't have to deal with over-crowded schools or the drama that comes from the high schools in my town.
- Samuel, 8th Grade
 - I love ORVA because there is no bullying. I had a hard time concentrating at my other school and didn't get good grades. Here, I'm taking high school courses and passing all my classes with A's. I am also making a lot of cool friends who do what I do every day.
