

To whom it may or may not concerns,

We are fed up with your lack of respect for law abiding citizens and the infringement of our rights. Do you even think about how your unconstitutional laws might affect someone who isn't a criminal and has never been charged with a crime?

The people are watching and we are fed up with your lack of respect for your constituents! You were elected by the people to represent the people and your very paycheck provided by the people. You work for us! Not just the inner city, but the state as a whole. We love the recall process! We're organized and our organizations are growing by leaps and bounds.

Sincerely,

Fed up Oregonians everywhere.
