

JoAnne Nesser - Oregon City, OR
Office Manager, Mother

HJM201 is very important to me. The people of this country need to be priority again, rather than the big money that is influencing our government. As a mother, I would like to assure my daughter that her vote actually makes a difference.

If you look at any of the problems we have in this country, it is usually because of the outside interests influencing our government. Let's get back to focusing on the citizens of this country!
