RE: Support for House Bill 4084 – Brownfield Property Tax Incentive Program

Dear Chair Barnhart and Members of the Committee:

The entities listed below would like to offer their support of House Bill 4084, which authorizes local governments to provide a property tax incentive program for the remediation of brownfield sites.

This legislation can help to address the high costs of brownfield remediation that often plague redevelopment opportunities throughout our communities in Oregon. Additionally, enabling local jurisdictions to create and incentivize their own programs in a way that matches local values and community needs is critical to their long-term use and success. Although a suite of tools will be needed to address the ongoing brownfield issue in Oregon, this bill represents a very important step in expanding the solutions available to local communities.

Thank you for your continued support of our efforts to make our communities safer and more economically viable through brownfield cleanup and redevelopment.

Sincerely,
