To: members of the Oregon State House rules committee.

It is with strong conviction that I ask you for a "yes" vote on "HJM-201"

I truly see HJM-201 as the only way that the United states constitution has provided for "we the people" to take back our democracy in the event of a corrupt congress that we are now dealing with today.

This bill is with out a doubt the first beacon of hope that so many millions of Americans have been seeking out for decades, and would put this country back on the right track that the founding fathers originally intended for this great nation.

HJM-201 is a direct path to resolving so many different issues that are a direct and indirect result of too much money in politics.

Thank you in advance for your consideration.
