Biennium

2015-17

## **Revenue Summary**

The Oregon Lottery collects revenues from traditional and video lottery gaming. It pays player prizes and its operating expenses out of these revenues and then transfers the balance (net profits) to the Administrative Services Economic Development Fund (EDF). The Department of Administrative Services then distributes funds from the EDF in adherence with constitutional and statutory funding priorities, including specific legislative allocations.

The March 2016 revenue forecast of 2015-17 biennium lottery resources is \$58,589,482 (or 5.1%) above the level of revenues assumed in the 2015-17 legislatively adopted budget, and \$40,332,940 above the allocations approved in the 2015-17 legislatively adopted budget. The legislatively approved budget allocations, including the allocations specified in the constitution, and by statutory allocations approved in the 2015 and 2016 sessions, total \$1,199,503,739, compared to the \$1,214,503,739 of total lottery resources projected for the biennium in the March 2016 revenue forecast. The forecasted 2015-17 biennium EDF ending balance is \$15,000,000, a reduction of \$1,000,000 (or 6.3%) from the ending balance in the 2015 session legislatively adopted budget.

## **Summary of Capital Construction Subcommittee Action**

### **Allocation of Lottery Revenue**

Two allocations are specified in the constitution. The Education Stability Fund receives 18 percent of net lottery proceeds and the Parks and Natural Resources Fund receives 15 percent of net lottery proceeds. The lottery funds transferred to these two Funds change in direct proportion to revenue changes. The March 2016 lottery revenue forecast translates into a \$9,958,114 increase in revenue to the Education Stability Fund, and an \$8,298,428 increase in revenue to the Parks and Natural Resources Fund, over the levels anticipated in the 2015-17 legislatively adopted budget. Each change is equivalent to a 4.9% increase.

### **Program Allocation Changes**

House Bill 5201 adjusts seven existing allocations of lottery revenues from the Administrative Services Economic Development Fund, and establishes one new allocation. The allocation adjustments in the bill increase total lottery allocations by \$41,332,940, and include:

- A new \$400,000 allocation to the Oregon Business Development Department is established for support of redevelopment of the Port of Port Orford Cannery Building. Senate Bill 5701 establishes a Lottery Funds expenditure limitation for the Department of the same amount, for expenditure of the allocated funds. This allocation was included in the 2013-15 biennium budget, but the funds were not distributed and so reverted back to the EDF. The new allocation extends support for this project by one biennium.
- Existing allocations to the Oregon Business Development Department were increased by a total of \$1,100,571, including:
  - The allocation for shared services is increased by \$185,866 to address the costs of compensation plan changes for employees.

- The allocation for business, innovation and trade is increased by \$534,709. This total includes an increase of \$334,709 to address the costs of compensation plan changes for employees, and a \$200,000 increase for the Oregon Wave Energy Trust.
- The allocation for the Infrastructure Finance Authority is increased by \$379,996. This total includes an increase of \$19,482 to address the costs of compensation plan changes for employees, a \$260,514 increase to expand administrative support for the Seismic Rehabilitation Grant Program, and a \$100,000 increase to conduct a Willamette Valley Intermodal Hub Feasibility Study.
- The allocation established to the Office of the Governor is increased by \$150,633 to address the costs of compensation plan changes for employees in the Regional Solutions Program.
- The allocation established to the Problem Gambling Treatment Fund is increased by \$56,209. The increased allocation is provided to address the costs of compensation plan changes for employees paid by Lottery Funds in the Oregon Health Authority's (OHA) Problem Gambling Service Program in the Addiction and Mental Health Division.
- The allocation established to the State Forestry Department is increased by \$72,136 to address the costs of compensation plan changes for employees dedicated to federal forest restoration.
- The allocation established for the State School Fund is increased by \$39,553,391. This reduces the EDF forecasted ending balance to \$15 million, \$1 million less than the 2015 close of session forecasted ending balance. Senate Bill 5701 increases State School Fund Lottery Funds expenditures, and reduces the State School Fund General Fund appropriation, by \$39,553,391, resulting in no net change in total State School Fund support.

### **Allocation of Criminal Fine Account Funds**

The Subcommittee approved allocation increases from the Criminal Fine Account (CFA) of \$3,853,875, thereby increasing total CFA allocations for the 2015-17 biennium to \$76,306,988. Because unallocated CFA revenue is transferred to the General Fund, these increases decrease 2015-17 biennium General Fund revenue by the same amount. Including the impact of the CFA allocations contained in this bill, the CFA transfer to the General Fund is forecast to total \$61,617,982, approximately \$1.2 million higher than in the close-of-session forecast. The CFA allocation increases include:

- The allocation to the Department of Public Safety Standards and Training for operations is increased by \$3,830,195. This amount includes \$2,790,195 for a one-time increase to the Department's number of training classes, and \$1,040,000 to address the costs of compensation plan changes for employees.
- The allocation to the State Court Facilities and Security Account in the Oregon Judicial Department for state court security and emergency preparedness is increased by \$23,680 to address the costs of compensation plan changes for employees supported by CFA funds in the Department's Security and Emergency Preparedness Office.

## **Summary Tables**

The first two tables summarize Lottery Funds cash flows and allocations in the 2015-17 legislatively approved budget. The figures in these tables are not restricted to the impacts of House Bill 5201, but also include the impacts of changes in the Lottery revenue forecast since the close of the 2015 session. The third table summarize Criminal Fine Account allocations in the 2015-17 legislatively approved budget.

1. The 2015-17 Legislatively Adopted Budget is based on the May 2015 forecast of 2015-17 resources, adjusted to include Lottery Funds reversions under ORS 461.559.

2. The 2015-17 Legislatively Approved Budget is based on the February 2016 forecast of 2015-17 resources.

3. 2015-17 Beginning Balance is equal to 2013-15 Ending Balance.

4. 2015-17 Beginning Balance includes 75 percent of the earnings to pay debt service on Education Lottery Bonds. The Higher Education Coordinating Commission receives the remaining 25 percent, plus any other earnings not needed for debt service, for the Opportunity Grant program.

5. Only includes transfers to the Main ESF account and not the 10% transferred to the Oregon Growth Account.
