

HB 4147
Bill Kenemer
From the Office of
State Representative
Bill Kenemer

Vote NO on HB 4147

- We do not have a gun problem, we have a gang problem. HB 4147 will not solve this problem.
- This measure will only place additional burdensome requirements on law abiding Oregonians.
- Taking away a citizens fundamental presumption of innocence should not be considered as an answer to a problem caused by much larger social factors.
- The additional asks of the Oregon State Police in HB 4147 come without funding.
- A short session does not allow for the time to properly vet a policy of this nature.
- If the intention of this policy is to stop violence then it should be withdrawn and replaced with a solution that will address the growing gang violence problem.
