Measure Description:

Prohibits Oregon Health Authority from retroactively changing terms of contract with coordinated care organization unless specified conditions are met.

Government Unit(s) Affected:

Oregon Health Authority (OHA)

Local Government Mandate:

This bill does not affect local governments' service levels or shared revenues sufficient to trigger Section 15, Article XI of the Oregon Constitution.

Analysis:

House Bill 4107 adds the global budget paid to a coordinated care organization (CCO) as part of the requirement that the Oregon Health Authority (OHA) must give at least 60 days advance notice of any proposed amendments to existing (or to be renewed) contracts between OHA and a CCO. This change will not have a fiscal impact on OHA as it does not require the authority to incur additional cost or make changes to current policy or procedures.

In addition, House Bill 4107 stipulates that an amendment to a contract may only apply retroactively if the amendment is necessary to comply with federal law, or if the amendment does not result in a claim by OHA for the recovery of amounts paid by OHA to a CCO prior to the effective date of the amendment. This mandate would be effective 91 days after the 2016 Legislative Assembly adjourns.

The fiscal impact of this mandate to OHA is indeterminate. If OHA is unable to recoup funds paid to a CCO, but is still required to repay the Centers for Medicare and Medicaid Services (CMS) the federal funds the state received on those non-qualifying expenditures, OHA will be required to use General Fund moneys to make those repayments.

At this time, OHA cannot predict if or when circumstances may occur in the future when a contract change is needed, and that change would require OHA to recoup payments made prior to the effective date of that amendment. Historically, these recovery of funds have ranged from a few dollars to several million dollars.
