Date: 2/19/2016

Measure Description:

Directs public universities and community colleges to increase voter registration access and information, requires Secretary of State to provide postage-paid return envelopes with ballots.

Government Unit(s) Affected:

Counties, Secretary of State

Local Government Mandate:

This bill does not affect local governments' service levels or shared revenues sufficient to trigger Section 15, Article XI of the Oregon Constitution.

Analysis:

The fiscal impact of this measure is indeterminate, because the number and frequency of statewide and county elections vary, and the impact of the measure on the number of ballots mailed is unknown. The bill requires the state to pay for and send a postage-paid envelope with all ballots mailed; this applies to elections held on or after July 1, 2017.

The direct fiscal impacts associated with this bill will be incurred by the Secretary of State (SOS) as a result of requiring the state to pay postage for all statewide or local elections. The SOS will setup a Business Reply Mail (BRM) account with the USPS and print and distribute postage-paid envelopes to the counties for insertion with all ballots. Cost estimates to the SOS are estimated to total \$170,000 in the 2015-17 biennium and \$1,840,000 in the 2017-19 biennium. Fiscal estimates are based on a maximum ballot weight of 1oz, at a cost of \$1.077 per envelope. The Legislative Fiscal Office notes that this estimate does not include costs associated with local elections administered by the counties. Additionally, fiscal estimates are based on historic numbers of ballots cast by mail; this analysis does not account for any possible increase in the number of mailed ballots that may result from providing postage-paid envelopes with the ballots.
