Hi Senator Gelser.

I noticed there is an update next week before the Judiciary Committee on HB 2355. I wanted to give you an update on how it has impacted the City of Albany. I was worried that by reducing drug crimes to misdemeanors we would see an increase in property crime. Currently Albany has a 12% increase in property crime for this year as compared to last year. I have attached a copy of our COMPSTAT sheet so you can see it. The overall chart is on the bottom left corner.

We also have a drastic increase in the number of charges related to drugs, which is at 42%, currently 764 as compared to 538 last year. Another issue we have is in the number of confidential informants we use to help us attack the drug supply chain. Since the first and second offenses are misdemeanors, we are finding that less people are willing to work as a confidential informant since they don't have a pending felony charge. This has impacted our ability to locate the bigger dealers. We have seen more drugs on the street since HB 2355 was adopted. Recently we had a rash of overdoses and at least two of them were fatal in Linn County. One of the drug dealers mixed too much fentanyl into the heroin he was selling and caused the overdoses. If we didn't have NARCAN deployed we would have had several more deaths.

I believe this change has victimized more people since its implementation. I am not sure what the update will be next week, I just wanted you to know how it impacted one of the areas you represent. If you have any questions please let me know. Thanks.
