Chair Prozanski and Chair Barker,

During my testimony to the Joint Judiciary Committee on September 26th, I misspoke and was not clear about the amount of "surplus" of excess of marijuana inventory in the tracking system.

Please do not rely on my "3 months" surplus inventory comment as it relates to overall cannabis production. That excess supply relates most closely to the inventory currently held only by retailers. My verbal comments did not make that clear.

Since this is a very important discussion concerning overall supply, I wanted to make sure that my lack of clarity doesn't cause undo confusion. I should have been more precise. That said, we look forward to bringing forward to the legislature our overall supply study which will give us all a common basis for this discussion in the future.

Respectfully,

Steve Marks
Executive Director
