This is in response to the HB2320. bill that would impose a fee to use Oregon waterways.

I am opposed to this bill as it violates our freedom to use the Oregon waterways that were approved on Feb 14, 1859 to navigate waters as free highways.

I respectfully request the Oregon State Marine Board and legislature withdraw proposed legislation HB 2320 Non-Motorized Boating Permit (tax) as it is not in the best interest of the people of Oregon.

I also request that no more taxpayers money on this poorly written illegal legislation be used . The Oregon State Marine Board clearly CAN NOT charge the people of Oregon to use navigable waterways which are owned by the People of Oregon.

thank you
