Dear Senate Committee on Environment and Natural Resources,

As a citizen of the State of Oregon and of this planet, I am gravely concerned over the state of our environment. It is clear that our climate is in crisis largely due to fossil fuel and other carbon emissions. We need bold leaders who will put aside business interests and put people and planet as a priority. I support bills SB 557 & SB 748 that will put a price on pollution and reduce greenhouse gas emissions in Oregon. We can support business and job creation through the creation of clean energy jobs and be a leader to bring about the vital changes needed NOW.

Sincerely,
Alodie Spires
Concerned Citizen
