Subject: SB 828
Date: Monday, February 27, 2017 1:18:38 PM

This bill is an intrusive, restrictive, punishment-driven regulation using government force to dictate (and I do mean dictate as in Dictator) how a business owner should operate and schedule his own business. It will serve to strangle initiative and any out-of-the box thinking relative to how the person who *owns* a business wants to provide work and work hours for his employees and clients. It is an oppressive bill that will make it harder, possibly impossible, for a business to flourish & prosper not only for the business itself but for its employees as well.
