

## SB 2 STAFF MEASURE SUMMARY

### Senate Committee On Judiciary

---

**Prepared By:** Whitney Perez, Counsel

**Sub-Referral To:** Joint Committee On Ways and Means

**Meeting Dates:** 3/7

---

#### WHAT THE MEASURE DOES:

Renames offense of operating a motor vehicle while using mobile communication device and expands it to cover operating a motor vehicle while using mobile electronic device. Defines key terms. Increases penalty for offense to A misdemeanor. Increases penalty to C felony if person has three prior convictions within 10 years. Imposes mandatory minimum fines and imprisonment. Makes offense person crime. Makes felony offense crime category 6.

*REVENUE: May have revenue impact, but no statement yet issued*

*FISCAL: May have fiscal impact, but no statement yet issued*

#### ISSUES DISCUSSED:

#### EFFECT OF AMENDMENT:

No amendment.

#### BACKGROUND:

In 2007, HB 2872 was enacted, making it a traffic violation for a minor to operate a motor vehicle while using a mobile communication device. In 2009, HB 2377 expanded this law to prohibit any person from operating a motor vehicle while using a mobile communication device. This offense was originally a Class D traffic violation. In 2013, SB 9 elevated this offense to a Class C traffic violation. In 2015, the Oregon Court of Appeals, in *State v. Rabanales-Ramos*, reviewed this legislative history and determined that the law "prohibits talking and texting on a mobile communication device, but not *all* activities that can be performed using such a device." (Emphasis original). For example, the statute would not prohibit a person from holding a cell phone to listen to music while driving. In 2016, a Distracted Driving Task Force (task force) began work on the issue of distracted driving. The task force issued a report in February 2017, which included a recommendation to amend the law to broaden the definition of device usage and eliminate certain exceptions.

Senate Bill 2 renames this offense and expands it to cover operating a motor vehicle while using a mobile electronic device. It also defines mobile electronic device and other key terms. SB2 eliminates several exceptions contained in existing law, such as use of a mobile electronic device for the purpose of farming or agricultural operations. SB 2 also increases the penalty to an A misdemeanor. It further increases the penalty to a C felony on the fourth conviction if the person has three prior convictions within 10 years. SB 2 requires the court to impose a minimum fine of \$1,000 on a first conviction, \$1,500 on a second conviction, and \$2,000 on a third or subsequent conviction if the person is not sentenced to imprisonment. It also establishes a maximum fine of \$10,000 if there is a minor passenger in the vehicle who is at least three years younger than the driver at the time of the offense. SB 2 imposes a mandatory minimum sentence of 48 hours' imprisonment upon conviction that must be served consecutively, unless

## SB 2 STAFF MEASURE SUMMARY

justice requires otherwise, or the performance of community service.

Finally, SB 2 classifies this offense as a crime category 6 on the sentencing guidelines grid when it is a felony. It also specifies that when a person is being sentenced for an offense involving a motor vehicle, two prior misdemeanor convictions for this offense is equivalent to one felony conviction for this offense and that convictions for this offense constitute person crimes.
