**RE: Support for HB 2745 – Transit Funding**

Chair McKeown and Members of the Committee:

I am writing today to urge you to support the bill currently before the legislature, HB 2745, which will give voters in Central Oregon a choice on whether their areas should fund a public transit system. We believe that public transportation is the path to a more sustainable future. This critical piece must no longer be ignored. Sustainable businesses need an environment that promotes a healthier and cleaner lifestyle. The time is now! Time to start winning again for the planet!!

A clarification to ORS190 offers a number of benefits to our Central Oregon Communities. It gives them local control -- each city can choose the appropriate level of service, funding amount, and tool for funding transit in their community. It maximizes efficiency, by retaining regional management for the transit system, minimizing costs and optimizing streamlined and convenient service. It drives economic development, helping local companies attract workers by giving employees a public transportation option that saves time and money. Some communities may choose to ask voters to support funding initiatives, and other communities may not be ready any time soon. Giving Central Oregon communities the option to seek transit funding from voters is important to our region.

So please, encourage the House Transportation Committee to move HB 2745 forward, and support its passage in this session. Thank you for giving local control of future transit initiatives into the hands of Central Oregon voters.
