Barbara Andrichak	Grand Ronde, OR	2017-02-26	No more for profit health insures...Americans deserve signal payer
Barbara Anderson	Sutherlin, OR	2017-02-27	Because the insurance companise arE a business only to make money. This is also true about drugs. Personally I've seen the worst ever in medical care, phRmacies, medical equipment and on an on. Why is it that other counties have doctors who come to the home,we once did. What has happened? Is the plan just to let us suffer and die? Food, shelter, and medical care should be available to us as American citizens. And we shouldn't be financially burdened.
jack nibert	Saint Helens, OR	2017-02-27	i think ins co are greedy thats that need i say more i could say a lot more but why bother
Holly Coleman	Haines, OR	2017-02-27	I believe pharmaceutical companies are taking advantage of the public in too many instances. We need universal healthcare that all Americans pay into and drug companies are forced to negotiate.
Dawna Cara	The Dalles, OR	2017-02-27	I believe in fairness
Joy Gauger	Riddle, OR	2017-02-27	I love with a chronic illness, Crohns Disease.
Jennifer Aldred	Klamath Falls, OR	2017-02-27	The Oregon legislature needs to start representing the citizen of Oregon. Out of control government greed is killing us.
Mike Hamm	San D iego, CA	2017-02-27	We are paying 100% out of pocket for our insurance premiums and don't need our premiums to go any higher.
Linda Avery	Blachly, OR	2017-02-27	I think this issue needs a second look! Please slow down and do your deep research!
Sylvia Echols	Waldport, OR	2017-02-27	We are tired of our health coming in 2nd of big CEO's and corporations profits! And our elected officials being bribed by them..
Rebecca Lincoln	Albany, OR	2017-02-27	I have a chronic disease and already have problems affording meds and care. Much more and I won't live much longer
Bruce Cooper	Portland, OR	2017-02-27	I'm already social security low income and on Medicaid, more expenses are more than I (or the state) can bear.
Joseph Rawlings	Portland, OR	2017-02-27	My medications are expensive enough and my health care should not suffer to profit corporations. Oregon should be for Oregonians.
Wendy Garbart	Portland, OR	2017-02-27	As a retired person with two chronic conditions and on several medications, I am thankful for my employer's retired employee guaranteed health insurance (through Kaiser Permanente, who was my insurer for the past 30 years, and which served me well and kept me alive through two serious health crises, and a complicated twin pregnancy that included two hospitalizations prior to delivery, and a C-section surgery at delivery). These have assured me reasonable copays on office visits, pharmacy services, and even ER visits and ambulance service. Without these benefits, I'm aware that I might have to choose between my medication and my mortgage payment. That is a completely untenable situation to be in; I urge Oregon to make the changes necessary so that no one has to face that choice.
Roger Kofler	Portland, OR	2017-02-27	Single Payer now! Why should 30-50% of our health care dollars go to insurance company profits?
nancy magill	Portland, OR	2017-02-27	It's about time

JoAnn Furnish	Seaside, OR	2017-02-27	I already habe a hard enough time paying for medical. I have 3 chronic illnesses and if the cost continues it may come down to getting my life saving medication or not. If I can no longer pay, I might as well be euthanized. Its ridiculous! I'm not a stray animal.
Leta McCurry	Florence, OR	2017-02-27	Prescriptions and medical care is way too high. My last three prescriptions were $220 and $187 and $237. I couldn't pick them up
Roberto Lovato	Milwaukie, OR	2017-02-27	I want Health Care for all, not Health insurance. Stop making the insurance companies richer at the cost of the poor!
trisha luna	Eugene, OR	2017-02-27	If you do this we will die
Janelle Schneider	Portland, OR	2017-02-27	The profits before people model.of health care leaves too many underinsured at higher costs, and still too many families lose everything to bankruptcy if one member has the misfortune needing major medical care for an illness or injury. Health care needs to be within everyone's means, and accessable.to everyone regardless.of.income.
Debbie Sneddon	Florence, OR	2017-02-27	Both of my daughter have chronic diseases. They need affordable health care to maintain their diseases and not have to worry from day to day if they will be able to afford to seek medical help.
Caris Cierley	Portland, OR	2017-02-27	Please consider what's best for patients with chronic conditions.
William Walker	1282 third st Lafayette,or 97127, Tajikistan	2017-02-27	Recast medical cost is too high and insurance companies and hospitals are gouging people and we are paying for a lot of people who are illegal in our country At the state or the federal government wants to pay for these people should find the money somewhere except our tax money or raise our medical cost
Doreen Kinnear	Portland, OR	2017-02-27	I believe health care shouldn't cost you your entire pay check!
Marilyn Firth	Corvallis, OR	2017-02-27	I know people on limited incomes who may be in need of these medications and because I care about the health of ALL people!
Richard Coffman	Klamath Falls, OR	2017-02-27	my family would be affected
Pamela Escobar	Keizer, OR	2017-02-27	I am sick to death of the greed that is consistently demonstrated by the so-called "health insurance" industry, along with big pharmaceutical companies and the AMA. They are never happy to play fair with policy holders!
Janet Coyle	Portland, OR	2017-02-27	We need to protect everyone!
Robin Hudson	Oregon City, OR	2017-02-27	If my costs go up any more, I like hundreds of others will need to chose between doctors, medications and household expenses. We have a 3 generation household of which my husband and I support 85% on a fixed income. Five out of six of us have chronic ongoing medical conditions. Ages 5-75. Please do not put any further stress on our family financials. Ps: Except for my husband's SS retirement, we do not qualify for any other public services! Thank you for your consideration in this matter!
David Garcia	Cave Junction, OR	2017-02-27	Single payer plan is ultimately the only way we can survive.
Joanna Flippin	Salem, OR	2017-02-27	I am 63. I cannot afford higher premiums on health insurance. Please do NOT pass this bill which only makes the wealthy CEO's in the health care companies wealthier
Sean O'Donnell	Salem, OR	2017-02-27	I do care
Lysa James	Portland, OR	2017-02-27	Insurers need to pay. How about working on reducing drug prices not denying the necessary drugs!!!!

Robin MCCORD	GRANTS PASS, OR	2017-02-27	I'm signing because the health industry should exist to improve lives, not to pad their pockets while providing as little care and value as possible.
Robert DeSantis	salem, OR	2017-02-27	The same people who flushed away $400 million dollars on a failed health exchange website , and only demanded 1/2 the money back , now want another crack at health care . Didn't it cost us enough the first time ?
terri griffith	Grants Pass, OR	2017-02-27	We need affordable healthcare!!! Not premiums that are $600 - 900 a month with $2500.00 to 5000.00 deductibles! I work and can't even afford that.
Tony Fichera	Phoenix, OR	2017-02-27	Give the Congress the same health insurance coverage as the rest of us --problem solved.
james Merk	banks, OR	2017-02-28	Time to stop the SALEM MAFIA !!
Cindy Cox	Wilsonville, OR	2017-02-28	Drug prices are high enough and deductibles are so high they can never be reached. Co-pays and premiums are up as well. How much of a % profit do they NEED??!!
Katy Byrtus	Portland, OR	2017-02-28	Access to affordable healthcare should be a human right.
Charles Pore	Lakeview, OR	2017-02-28	I am barely able to afford what I need to stay alive now. Sadly, the issue has become that I can afford to die ... I just can't afford to live.

Donna Fischer	Paterson, NJ	2017-02-28	I live in Oregon not NJ. I'm on a fixed income and can barely afford the insurance I have with my Medicare plan. It would be a hardship for me to have to pay more for my healthcare.
Sierra Millet	Beaverton, OR	2017-02-28	I believe in single payer and comprehensive medical care for all.
Tracey Steward	Springfield, OR	2017-02-28	I really feel like there is too much lobbying for insurance companies, not enough for the middle and lower class tax paying citizens.
Tamara Gabrielson	Brookings, OR	2017-02-28	Insurance companies are BIG business. The needs of citizens should not be outweighed by the need for higher profits. When I worked for Community Services Consortium/Energy Assistance Grants, there were many people who had to decide whether they would pay for live saving medication or their utility bills. In a country as wealthy as the US, that is shameful. Don't let big business increase their huge profits by ripping off the poor and infirm.

mabel kauffman	Bend, OR	2017-02-28	Do not line the pockets of big health insures!! IMO if the insurance companies were out of healthcare, health care would be cheaper. The insurance companies are the reason for this and lately we are paying more and more in premiums and get less and less coverage!! Please do not help insurance companies get richer!! All you are doing is hurting your constituents!!
william farrar	Dallas, OR	2017-02-28	Tired of being screwed over by insurance companies. Something has to be done about them they are out of hand.
Dianne Nimrod	Donald, OR	2017-02-28	I believe that insurance companies pickets have been lined with iur money for years, even before the "Affordable Care Act" which the average citizen can not afford. They are for profit groups which only want to line their povkets more. To insurance companies: stop nring greedy and think of actually caring for human brings!

This is my only life line. There are many others like myself. Please please stop the pharmaceutical companies from raising prices and big insurance companies from taking our insurance coverage away.

Insurance companies are not there to help the consumer they are there to make as many dollars as they can with no thought to the person. If I signed something promoting insurance I did not mean too! I do not think they are helping I think they are harming!!!

Melissa Hartley	Corvallis, OR	2017-03-01	I know that chronic disease is a huge extra burden that 25% of our population has to deal with. It is a major factor in poverty. Health insurance companies must provide the treatments doctors recommend for their patients at less cost to patients. What we really need is single payer universal health care.

Genee Coon	Roseburg, OR	2017-03-01	Health care is much too expensive for most people. Medicare and the supplement plans hardly cover most urgent problems. The supplement plans that will cover more costs have very high premiums. Parents with children need lower deductibles on their insurance coverage. It is out of reach for many families. Self employed folks can hardly afford insurance for themselves and their families. Please get these costs under control.

I am lucky to have good insurance coverage that covers most of my medical bills, but the co-pays that I have to pay for my medication is going up every year. The only way that I can afford them is to get them through the mail (which is part of my insurance coverage). Without this I would be SOL.

rhonda cole	Hermiston, OR	2017-03-02	Already medicines are being denied to those who physically need them and given to patients with minor complaints. It is insanity. We have an obligation to give the best quality of life to the chronically ill ad to make the dying comfortable regardless of age, wether it is cancer related, regardless of any discrimination. The parmaceitical and medical industry. As well as the insurance companies know there is only a small amount of money to be made on the terminally ill, the sick,and the elderly. It is a heinous injustice in our system that does not need further assistance in advancement in one of the most sophisticated cultures on the face of Earth. Our systems flaws are embarrassing and reek of greed at the expense of the ill. Looks like the powerful could find better ways to grease the greed wheel than with the sick.

I can not afford to pay for them without insurance coverage. Please, please don't do this.
Diane Moore	Jacksonville, OR	2017-03-02	People before profits. It is immoral that drug companies can charge as much as they want and people sometimes have to choose between the medications they need and putting food on the table.
Carol Truesdale	Eugene, OR	2017-03-02	Health insurance costs are becoming unaffordable. Then when you use the policy, the costs for the patient portion is becoming greater and there are more exceptions that aren't paid for in procedures. Pharmaceuticals are outrageous and it seems like more medicines are placed in higher tiers where we have to pay for them at a greater rate than we did last year or they decide we can't get the medicine any more, instead we have to get a different medicine from a different company and it will cost us more. And since when do insurance companies determine what procedures I can or can't have? Bowing down to the insurance industry in any form is wrong and our governing members in Oregon should be watching out for us when dealing with thosee cutthroat insurance leaders!

Cherrill Hemminger	Prineville, OR	2017-03-02	I am already being denied prescriptions, and it seem unreasonable to deny more when the doctors prescribe them as needed. I had to pay for one not covered by Medicare a few months ago that could save my life if needed, NARCAN, used in emergency only, and recently a second one PREDNISONE, needed to reduce inflammation and pain. These are not drugs that are not needed, they are to save my life and ease my pain. So I think this is a heartless action taken by bureaucrats. I liken this to setting the elderly on a boat with no oars or a ice float and pushing them out to sea, and letting nature take its course.

PATRICIA BARTCH	portland, OR	2017-03-03	THE INSURANCE COMPANIES ARE CHEATING US. Health insurance companies, masters of finding ways not to pay for the coverage they are supposed to provide, are now pushing legislation (HB 2387) that would leave them paying even less for life saving treatments that Oregonians need. Ramona Brnnett	Grants Pass, OR	2017-03-03	I want affordable and accessable drugs and healthcare
Helen Norton	Florence, OR	2017-03-03	Health insurance companies already have too many ways to deny coverage. They don't need another one.
Lucy Weir	Eugene, OR	2017-03-03	My partner cannot afford to pay over $130 for one inhaler to control his asthma. Who can afford that, so it's that one inhaler or his other meds. Hence he gets the generic version that is far less effective. Big pharma cannot be regulated by choking the FDA that ensures safety prior to releasing meds to market. But someone needs to guarantee patients meds that are individually effective at more reasonable costs.
Christopher Ostling	St. Helens, OR	2017-03-03	I do not like Pharma Drugs, they nearly killed me. I like Natural Medicine that actually works but I will not deny others of their choice so Insurance Companies make more money.
Tina Wilkerson	Walterville, OR	2017-03-03	This is important and I'm tired of insurance companis charging more and giving less benefits. At this point in my life I am insurance poor.

Erika Belk	Canby, OR	2017-03-03	Because I am so sick of the corruption.
Marianne Mathieson	Milwaukie, OR	2017-03-03	Saying HB2387 will help patients is BS the only thing it will help is the insurance companies.
Rita Manning	Albany, OR	2017-03-03	I want HB 2387 to be defeated, and be considered.
Paul McManus	Portland, OR	2017-03-03	I don't think ANYONE should be denied health care!

Sharon McNally	Florence, OR	2017-03-03	I am a diabetic and a caregiver, and my insulin already costs me $250 month out-of-pocket. I would have to give up insulin if it costs more.
Wendy Schaefer	Dufur, OR	2017-03-03	insurance companies have been putting profits ahead of their customers for a long time. Profit is ok, in moderation. Customers are not milking the system nearly as much as the insurance companies have been.
William Storey	Winston, OR	2017-03-03	I hate big pharma and big insurance
Mary Ann Sward	Corvallis, OR	2017-03-03	The profit margin on health care insurance coverage is already robust. In the long run, better patient coverage saves everyone money and dies not destroy the modest assets of those with chronic conditions. When personal assets are used up, care is provided at emergency rooms at a very steep cost to the whole health care system
Amy Ayers	Corvallis, OR	2017-03-03	Insurance companies make tons of money in the premiums they are paid and they need to be working for consumers, not trying to make money off of illness. Take the profit out of health care!
Brad Clarambeau	Sandpoint, ID	2017-03-03	Because I live in Oregon and have a chronic health problem.
Pamela Halpin	New Port Richey, FL	2017-03-03	Everyone deserves GREAT healthcare and medicines...not just the wealthy!
Martha Russell	Medford, OR	2017-03-03	People pay for insurance because they need coverage, not to line the pockets of CEO's. Back your constituents, not your lobbyists.
Jeri Lynn Murr	Pendleton, OR	2017-03-03	I care about my family and friends who depend on insurance to help with the cost of ever increasing medicine costs. It's crazy to have to pay the high prices for the necessary meds! Big Pharma has to go. NOW!
Joyce Hoover	Salem, OR	2017-03-03	I am a senior citizen and am living on a very limited income! At this time I do not have any serious health issue. Should that happen, I would not be able to afford any meds! Please vote against this measure!
Lyz Snyder	Eugene, OR	2017-03-03	I am tired of insurance companies not taking care of people while they get richer. Shame on you.
Juanita Rinas	Eugene, OR	2017-03-03	Affordable health care is life saving for many of us...this is not about helping those that need insurance...this is big business helping big business make more money...not what healthcare related businesses should be about to begin with.
erin marquiss	Portland, OR	2017-03-03	I want people with preexisting conditions to still be eligible for affordable insurance
Linda Trussell	Salem, OR	2017-03-03	Health insurance is insane. The people that really need it can't aford it?

Carol Penuel	Warrenton, OR	2017-03-03	I have a rare blood cancer and it is evolving into another cancer that may require drug treatments that are expensive due to the scaring in my bone marrow. I also once took a expensive drug at the beginning of my blood cancer to control my blood platelets which I could not have afforded without insurance. Don't give in Big Health Insurers!!
Carolyn Heberlein	Hillsboro, OR	2017-03-03	Please take a second look at House Bill 2387, this will impact mini Oregonians with chronic health care conditions.

Rhonda Clarke	Klamath Falls, OR	2017-03-03	We need better health care
Loren Million	Beaverton, OR	2017-03-03	It's about time we got insurance companies out of health care. We need a single payer governmennt program to insure we have coverage for all. Insurance companies only want profit, not to provide health care. Put a Democrat back in The White House to fix the woes of this nation.

Kara Brinkman	Eugene, OR	2017-03-03	Insurance companies need to be held accountable for getting rich off the backs of those who are going bankrupt trying to pay their medical bills!
James Hicks	Cave Junction, OR	2017-03-03	I have a chronic health problem. HIV infection leaning towards AIDS now. Though this applies towards insurance, this could normalize and pave the way to withdrawing my OHP benefits (which are wonderful). Thank you!!!
Daniel Hendrickson	Forest Grove, OR	2017-03-03	Not good for Oregon or its citizens.
Graham Rankin	Huntington, WV	2017-03-03	My wife suffers from high blood pressure and asthma. Without insurance coverage for the drugs she requires, we would be paying over $1000 a month out of pocket which we cannot afford. She was on OHP, but was dropped last September because we earned $200 a year more than the limit. Her current health insurance thru the ACA exchange is over $530 a month with a high deductible. The legislature must do something to truly bring down drug costs or we will end up bankrupt.

Roswitha Ludwig de Alvarez	Salem, OR	2017-03-03	I have been denied treatment by Providence insurance for Hepatitis C which I contracted while working in the healthcare field . The reason they gave I don' t have enough damage. Linda Condon	Clackamas, OR	2017-03-03	It's way past time to put insurance companies and big pharma back where they belong, and put patients first! It is criminal when people who need medicine and medical treatment the most, simply can't afford it due to the intentionally high costs set by insurance companies and big pharma who consistently but profit before patients health and medications affordability. I urge the Oregon legislature to vote NO one this "bait and switch" bill, and draft a new bill that actually protects the people against health insurance companies and big pharma from gouging them, thus keeping them from the treatments and medications they need.
Linda Vellines	Sutherlin, OR	2017-03-03	I find this legislation appalling. There are so many other options for people in these situation. Who does it really benefit? Insurance companies!
