

Chair,

Hello my name is Susana. I've been working at a retail store in the Woodburn outlet for more than a year now. My schedule isn't consistent, meaning I'm on call most of the time. I don't have a set schedule; therefore I spend most of my time wondering whether I work or not. Being on call makes it difficult because I manage two jobs. For instance if I'm working at one job I miss out on the hours on my second job, making it more difficult to get hours on my other job. Last minute changes or on calls prevents having time off. It's very difficult to work in a situation like this. Part time unpredictable pay isn't enough to make ends meet. We should not have to live life on a day's notice. We have families to support. I support HB 2193.

Thank you.
