

As a long time Portland renter, along with the majority of this City's residents, as well as a large majority of Oregon's citizens, I strongly want to encourage you to put the end of Just Cause evictions and the repeal of the State's ban on allowing localities to use rent control on the political front burner. Please fight for HB 2004. We are in the middle of a crisis because of the lack of checks on land lords and rights for tenants. This bill will not cost ethical landlords, only those who want continued free rein for their greed and callousness. HB 2004 is the medicine we need for a healthy future for Oregon's communities.

Thank You
Mark Vorpahl
