

Hello Oregon Legislature,

We would like to register my support for HB 2004 to lift the ban on rent control in Oregon. We are homeowners in Portland but also own a rental property in Eugene and think it is unconscionable that so many landlords are raising their rents by such high margins.

We have seen many friends affected by these increases and very much want there to be some protections.

Please consider passing this legislation to protect our most vulnerable population!

Thank you,

Shari & Michael Rose
