

Please Support house bill 2004 ending no cause evictions and ending The ban on rent control.

As a single mother of a child I shouldn't have to feel panic every time I check my mail for fear of being affected for no reason or a rent increase I cannot afford. My friend has nearly doubled in only three years. My minimal pay increases at work do not come close to this amount. At this point in time I pay over 65% of my income to my rent. When I first moved in I paid less than 40%.

All people deserve housing. Please support this for all Oregonians. Thank you.
