

House Committee on Revenue March 7, 2017
HB 2115

SECTION 3.

2(b) A description of the community benefits provided by the hospital or health system;
and (c) The expenditures of the hospital or health system on the reported community
benefits.

**Does the definition of community benefit only address medic service or does it
address support of basic services.**

As an example:

**-\$50,000 contribution for the defeat of a measure that would establish a tax on
payroll to support local bus service. The Hospital would be taxed if approved by
voters.**

**- Not adhering to city code causing LUBA to send to the city two cases of error.
Oregon Court of Appeals ruled in favor of my petition. I had to pay the difference
between the award granted between the hospital and myself and 9% interest. I paid
\$50 for the difference and .84 interest.**

SECTION 7

B (f) Welfare program. **Does it also include capitation.**

Final testimony (adjusted)

Respectfully
