Subject: Regarding the closure of Junction City State Hospital

Hello.

My name is Benjamin Wu and I think it would be an irreparable mistake to close the Junction City State Hospital. My brother, Nicholas Wu, is currently thriving as a patient under the care of the facility. It really seems to be an effective means for rehabilitative care that we so desperately need right now. Closing the hospital would be closing the doors on so many that need so much. Even I need something from this. I need my brother. The hospital seems to have given him a new chance at life. It's given me a new chance at life with my brother. Please consider me and all those that would be affected by the closure of the facility. Just don't do it.

Cheers.

Benjamin Wu
