

Strongly Oppose
Disenfranchizes my vote
DO NOT PASS

It has been the United States constitutional order for the voters of each State to select electors to the electoral college for national office elections. This bill would remove my right to vote with a majority of my fellow citizens to determine how our state shall make its will known to the College of Electors. Under this bill 99 percent of Oregon voters could choose a different candidate than a bare majority of US voters and the Oregon voters would be disenfranchised and their vote nullified. This will undermine our statewide democracy and our confidence in the US Constitution.
