Subject: SB 197 (Relating to Dairy Air Contaminants)
Date: Thursday, March 09, 2017 12:32:00 PM

Dear Representatives of Senate Committee on Environment and Natural Resources,

I am writing to you today in a personal capacity, as a Law graduate whose scholarship specializes in environmental justice and animal law. I urge you all to support this much needed bill to enhance regulation of Dairy CAFO's. The impacts that these "farms" have on the air quality, water quality, and the communities and workers living in proximity to these operations is huge. I could attach hundreds of research papers outlining the various harms of these operations, but I will limit myself to attaching one [document](#) which touches on most of the big issues.

I trust that you will make the right decision for your constituent's health and their environment for future generations of Oregonians. Thank you for your public service.

Warmly,

Rebecca Jenkins, LL.B., LL.M.
