

I repeatedly email my State Senator, Richard Devlin, asking him to support a vote in the Oregon State Senate for a National Popular Vote.

He sends me an email each time saying that he thinks this matter should be put to the people in a ballot measure.

What can we do to hurry up with this urgent matter!??? It does not need to go to a ballot measure. Other states are way ahead of Oregon with this. Can we not just get this taken care of in our state legislature??? We are excruciatingly overdue for a National Popular Vote. Nationally we would not be in the Constitutional crisis we are in IF we had had the National Popular Vote enacted by November 8th, 2016.
