I urge you to act decisively to restore farmer's rights.

The Legislature needs to act to:

- Restore the ability of local farmers to address their diverse agricultural needs at a community level.
- Allow farmers to determine what will work best in their agricultural communities, such as creating GE-free zones or other solutions.
- Allow communities to protect high-value agricultural crops, such as wheat, alfalfa, and specialty seed.

Thank you. I look forward to seeing the results of your work.
