

Please distribute my wish to support HB2469 to all committee members.

Family farmers deserve the right to determine their agricultural needs. In 2013, the Oregon legislature took away all rights for local governments to regulate local agriculture. The Legislature needs to act to:

- Restore the ability of local farmers to address their diverse agricultural needs at a community level.
- Allow farmers to determine what will work best in their agricultural communities, such as creating GE-free zones or other solutions.
- Allow communities to protect high-value agricultural crops, such as wheat, alfalfa, and specialty seed.

Please support HB2469

Thank you!
