Subject: One person, one vote
Date: Monday, March 13, 2017 12:46:43 PM

The electoral college allow states to maintain their vote share while discouraging the poor from voting.

It also focuses campaigning for the most important election in our country on a handful of swing states.

The policies developed during the campaign serve only swing states. The National Popular vote scheme

is a completely constitutional way to reverse these inequities.

Needless to say, Oregon deserves to help choose our president.
