

The following is my testimony opposed to HB 2927 public hearing
3/14/17

Chair Williamson and Members:

I am opposed to HB 2927 because I believe, as did the drafters of our Electoral College, that smaller state populations, like Oregon, are disadvantaged and have less voter influence than the larger states without the Electoral College System. Therefore, I am opposed to a popular vote.

Thank you for this opportunity to testify.
