

To: Oregon Legislative Rules Committee

Dear Rules Committee Members,

As a citizen of Oregon I want Oregon's citizens to be on the Electoral Map. The vote of Oregonians needs to count in national elections and at this time these votes are mostly irrelevant.

I want the person who receives the most votes to become President of the United States.

I believe in one person, one vote, everyone's vote counting equally.

A survey in 2008 showed that 76% of Oregonians are in favor of the National Popular Vote. Please honor the will of the people of Oregon.

Please recommend HB2927 National Popular Vote Interstate Compact for a "DO PASS" out of the Rules Committee and vote yes on National Popular Vote Interstate Compact in the Legislative session.
