Subject: Senate Bill 860

As a licensed professional counselor in the state of Oregon for over 20 years, my clients have been very impacted by the lack of parity in the mental health profession. I have been questioned by insurance companies as to what and why I am providing therapy, I have had them at times refuse payment or reduce sessions, I have seen many professionals terminate insurance contracts because of poor reimbursements which has greatly limited clients' options, and I have seen good people leave the profession because of lack of parity and inadequate reimbursements. Senate Bill 860 is long overdue and I hope that you will finally give us the mental health parity that is necessary for the well-being of the people in this state.

Sincerely,
Judy Tuttle Zollner, LPC
