

Hello Oregon Legislators,

I know I speak for many as I write to ask that you please support this bill. I believe that if we strive for a true democracy the only way is by letting each vote be counted. I wish I understood our political system better, my beliefs is that the ongoing gerrymandering is a constant offense against true representation. If we were to enact elections by popular vote, wouldn't this eliminate the need for this practice.

Sincerely,
Alice Fairfield
