Dear Governor Brown,

I am writing on behalf of the Independent Party of Oregon to express the party's support for legislation to make Oregon the 12th state to sign on to the National Popular Vote Compact.

The party and its officers were encouraged to read recent reporting that you support electoral college reform. We are pleased that one such reform is currently under consideration at the Oregon legislature and we hope that you will use your position to help secure passage of that legislation.

The Independent Party has supported National Popular Vote since 2009 based on three basic criteria:

- First, the party supports the application of “one person, one vote” as a primary ethical consideration when evaluating voting systems.
- Second, the current system of Presidential Elections is too easily manipulated by a single county clerk or partisan secretary of state.
- Third, the current system of elections is heavily weighted to a handful of so-called “swing states”, leaving the concerns of most voters largely unaddressed.

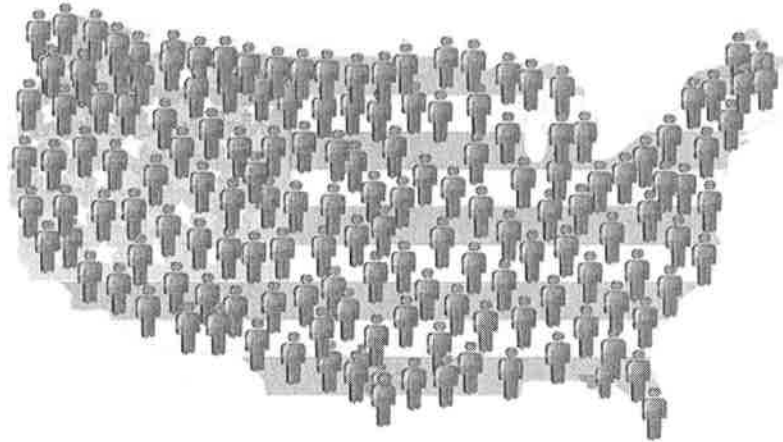

We do not agree with those who believe that passing the National Popular Vote is intended to advantage either major political party. Rather, we believe that its passage will help to “unrig” a system of elections that is too easily manipulated by bad actors in a handful of states.

Sincerely,

Sal Peralta
Secretary, Independent Party of Oregon

PS – I am attaching a copy of the petition we have circulated along with the 543 signatures we have gathered as of 2/13/2017.

MAKE YOUR VOTE COUNT

HOW OREGONIANS CAN HELP CHANGE THE ELECTORAL COLLEGE FOR THE BETTER

Oregonians have gotten pretty used to being ignored during the Presidential election. This year, the two Presidential candidates only campaigned in 12 states. Oregon was not one of them.

To make matters worse, for the second time in the last 5 elections, the winner of the national popular vote has lost the Presidential Election. And therein lies the problem with the Electoral College. It denies the fundamental principle of "one person one vote" by giving some voters -- those that live in Ohio, Pennsylvania, Florida and other so-called "battleground states" -- a bigger voice than others. It is also too easily rigged by a corrupt Secretary of State or County Clerk who can more easily swing a key state in the electoral college than they can a national election where everyone's vote counts.

Unlike most of the problems with our federal government, there is actually something that we can do about it right here in Oregon.

We can ask our state legislature to become the twelfth state to sign on to the National Popular Vote Compact which will guarantee that the Presidential winner will be the winner of the national popular vote.

Currently, the agreement has been signed into law in 11 states totaling 165 electoral votes. Once enough states sign on to get to 270 electoral votes, the agreement will go into effect, guaranteeing that the Presidency will go to the winner of the national popular vote.

Please join us in signing this petition to ask the Oregon legislature to pass the National Popular Vote in the upcoming legislative session.
