Subject: Senate Bill 860

As a Psychologist in Eugene for over 36 years, I would like to voice my support for Senate Bill 860.

Getting high quality mental health treatment in a timely manner can make such a tremendous difference in one's overall physical and mental health.

Early treatment is extremely important for children. The 50+ studies in the past few years on Adverse Childhood Experiences [ACEs] and their impact on life-long physical health and the reduction in teen substance use is of critical importance. ACEs are now being considered in the US as a leading cause of Illness, Poor Quality of Life, & Early Death.

Please support this Bill...

Thank you,
Charlotte Peterson, PhD
