

Dear Chair Clem,

- This bill will create an impossible patchwork of rules and regulations governing seeds across Oregon.
- USDA, EPA, and the FDA currently regulate GE seeds and plants and have in-house expertise.
- counties and cities DO NOT Have the money to pay for researching, inspecting and enforcing seed regulations-they are not even enforcing the current marijuana planting and growing rules.
- Help Oregon's taxpayers, PLEASE OPPOSE THIS EXPENSIVE AND UNNEEDED LEGISLATION.

Sincerely,

Wes Miller
