

My Person Testimony in opposition to Oregon House Bill: HB 2927

March 14, 2017

To whom it may concern,

I am in opposition of the movement for a popular national vote, HB2927. A National Popular Vote is not in the best interest for the citizens of the United States!

Please do no harm to the Constitution of the United States of America. The Electoral College was designed by the framers, our founding fathers, to protect the minority from the majority in a Presidential election. I fear this will lead to the further destruction of the Constitution. Getting the most votes is what the National Popular Voter movement is all about. Future candidates who run for President may never spend any time in smaller Communities or States where many citizens of this nation live. The great State of Oregon is such a state. This would be a huge injustice for all voters across the United States of America and for the state of Oregon. We could see the end of presidential candidates who care about the needs of some for the votes of the masses.

Respectfully yours,
