Date: Tuesday, March 14, 2017 4:17:39 PM

Dear Senator Rod Monroe and Representative Barbara Smith Warner,
and members of the Ways & Means Education Subcommittee,

Please honor the understanding we have gained from research in education--
an understanding that all our efforts to provide success in higher education, secondary education, and primary education
will be rewarded with greater success when we assign new funds and new
levels of focus on healthy pre-natal care and the birth through age 3 programs
for all children in our state.

Create the process and programs that will reach out to every
community throughout Oregon for the very earliest childhood
nurturing and care to all newborn residents of our Oregon.

Thank you for all of your efforts and concern.

Jim Brunke
