

Dear Channa,

I am writing to request your vote in favor of HB 2739 to protect farmers and communities from contamination by genetically engineered crops by holding patent holders responsible. I am one who chooses NOT to eat genetically modified anything (knowingly) and as such purchases only organic food so I am critically aware of the concerns of the genetically engineered crops.

I sincerely request that you carefully consider the consequences of NOT supporting this bill...and to cast your vote IN FAVOR of HB 2739.

Respectfully,
Cheryl Matschek, Ph.D.
North Plains, Oregon
