I suport this bill to restore the right of local farmers and communities to protect their specialty crops and farmland by establishing GMO-free zones. Oregon's high quality and high value crops need to be protected, and communities and farmers should have the right to do that. I do not own a business or farmland that would be affected by this, but I do buy local and organic food that I rely on to keep me and my family healthy.

Please distribute my comments to the committee members who will decide this important matter.

Sincerely,
Susan Board
